

## Home Screen Sketch Design

### HOME Screen

#### Box One (Text/IMG/VID)

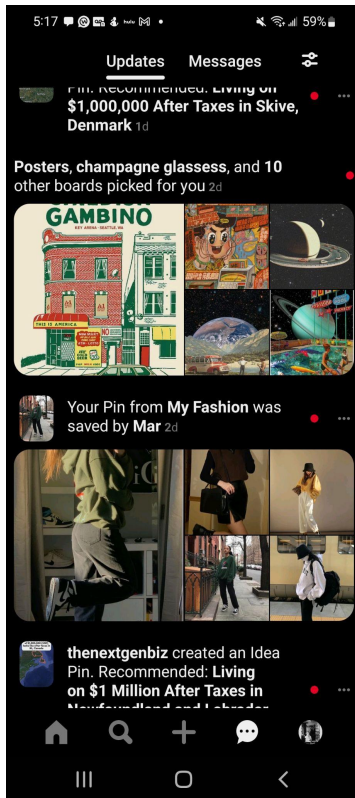

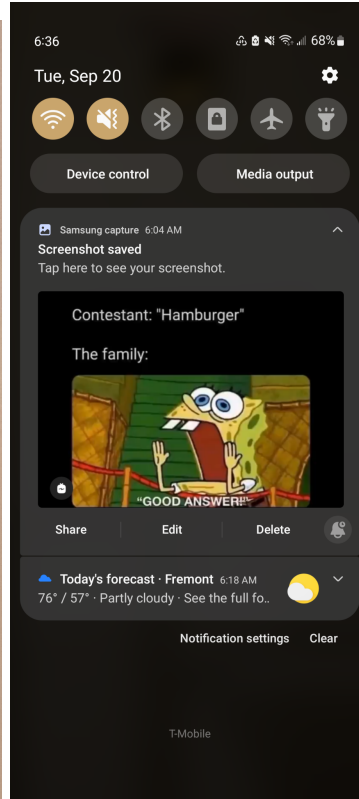

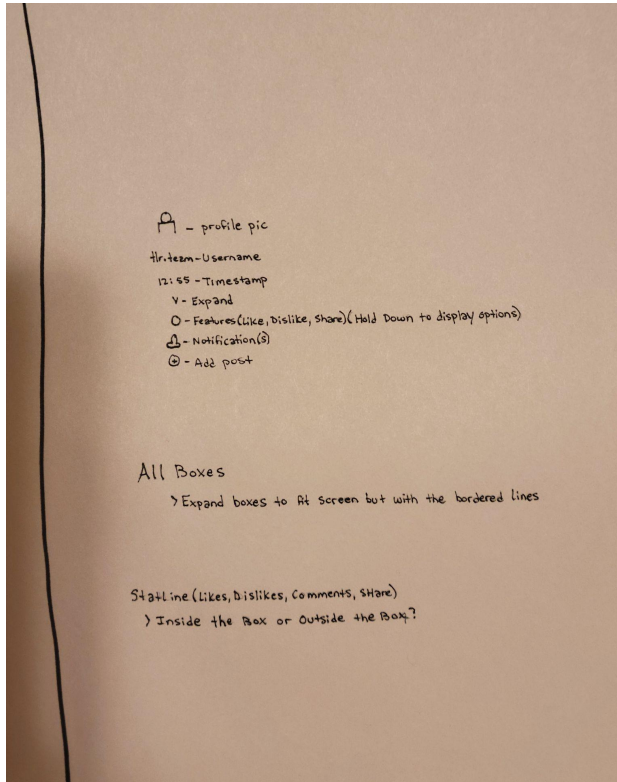

- > All Edges Rounded if it's a singular post
- > If single post is an image At box to image (or video)

#### Box Two (IMG/Text)

- > Edges Not Rounded if it can be expanded
- > Expands Down With a slide Motion
- > Five Images Maximum per post box (Ten Total)
- > Post Box Condensed until slid for Expansion
- > Click Image to expand & scroll left for the remaining photos

#### Box Three (Text Thread)

- > Expand to see continuous post
- > Scroll down to read thread

## NOTES

---

### **Box Two**

- Feature display should go inside the box with text
- Statline should also go inside the box with text like box one and three
- “Spongebob image” is how the picture/video will be displayed with just text and one image or video - “Tap here to see your screenshot” is how the text will be displayed
- Post with multiple images will have text below the image or text above?

### **All Boxes**

- Fit to phone screen with text, image and video enclosed with bordered lines

### **Reference**

- Samsung notification alerts
- Box two is a pinterest collage reference
